

Walkthrough record — Treasury

T-04 · Borrowing within board-approved limits

Treasury — Group Treasury · Control owner A. Verma · Companies: Altura Infra Holdings Ltd, Altura Solar Pvt Ltd, Altura Wind Pvt Ltd, Altura Smart Metering Pvt Ltd

1. Scope of the walkthrough

This control addresses the risk that treasury exposures taken outside board-approved limits (AIH/TRY/R003), supporting the accuracy and existence / occurrence assertions over drawdowns and new borrowings.

Transaction traced end to end: the Rs 120 crore drawdown on the SBI term loan of 14 Feb 2026, at Altura Infra Holdings Ltd. Walkthrough held on 18 Mar 2026; attendees A. Verma, N. Bhatt (Treasury Controller), A. Mehta (auditor).

2. What we saw

The control is performed by A. Verma (Group Treasury) each month, before the ledger closes: the team checks every drawdown against the board-approved borrowing limits before the facility agreement is signed.

Step 1 — Treasury prepares a drawdown note with the facility, amount and tenor. Observed and agreed to the system record.

Step 2 — The note is checked against the board-approved borrowing limits and covenant headroom. Observed and agreed to the system record.

Step 3 — The Group CFO approves the drawdown note; amounts above Rs 500 crore go to the Board. Observed and agreed to the system record.

Step 4 — The drawdown is booked in SAP Treasury (TRM) from the signed note. Observed and agreed to the system record.

3. Precision

Tolerance: nil above the board-approved limit — no drawdown may take total borrowings over it, and covenant headroom must stay above 10%.

4. Segregation confirmed

The drawdown note is approved by the Group CFO, independent of the dealer who negotiated the facility. Confirmed by inspecting the role assignment in SAP S/4HANA (FI-BL).

5. Exceptions

Any exception — a drawdown that would breach a limit — is held and escalated to the Board before signature. No exception arose on the transaction traced.

6. Conclusion

The control is implemented as described. Screenshots and the SAP audit trail for the traced transaction are retained with this record.
