

Walkthrough record — IT General Controls

G-01 · Privileged access reviewed quarterly

IT General Controls — Group IT — SAP Basis & Security · Control owner V. Menon · Companies: Altura Infra Holdings Ltd

1. Scope of the walkthrough

This control addresses the risk that unauthorised or excessive access to financial systems (AIH/ITG/R001), supporting the accuracy and existence / occurrence assertions over privileged SAP access.

Transaction traced end to end: the Q1 2026 privileged access review, at Altura Infra Holdings Ltd. Walkthrough held on 18 Mar 2026; attendees V. Menon, J. Mathew (IT Compliance Lead), A. Mehta (auditor).

2. What we saw

The control is performed by V. Menon (Group IT — SAP Basis & Security) each month, before the ledger closes: the team reviews every privileged SAP account each quarter and removes access that is no longer needed.

Step 1 — IT extracts users with SAP_ALL, firefighter and Basis roles. Observed and agreed to the system record.

Step 2 — Each owner confirms whether the access is still needed. Observed and agreed to the system record.

Step 3 — Access no longer needed is removed within 5 days. Observed and agreed to the system record.

Step 4 — The review is signed off by the IT Compliance Lead. Observed and agreed to the system record.

3. Precision

Tolerance: nil — every privileged account is reviewed every quarter.

4. Segregation confirmed

The review is done by IT Compliance, independent of SAP Basis who hold the access. Confirmed by inspecting the role assignment in SAP S/4HANA.

5. Exceptions

Any exception — access kept without a reason — is escalated to the Group CIO. No exception arose on the transaction traced.

6. Conclusion

The control is implemented as described. Screenshots and the SAP audit trail for the traced transaction are retained with this record.
