

Walkthrough record — IT General Controls

G-03 · Terminated users disabled within 24h

IT General Controls — Group IT — SAP Basis & Security · Control owner V. Menon · Companies: Altura Infra Holdings Ltd

1. Scope of the walkthrough

This control addresses the risk that unauthorised or excessive access to financial systems (AIH/ITG/R001), supporting the accuracy and existence / occurrence assertions over leaver accounts.

Transaction traced end to end: leaver ticket RITM0041172, at Altura Infra Holdings Ltd. Walkthrough held on 18 Mar 2026; attendees V. Menon, J. Mathew (IT Compliance Lead), A. Mehta (auditor).

2. What we saw

The control is performed by V. Menon (Group IT — SAP Basis & Security) each month, before the ledger closes: the team disables the SAP account of every leaver within 24 hours of the HR termination date.

Step 1 — HR records the termination in SuccessFactors. Observed and agreed to the system record.

Step 2 — The leaver feed raises a disable ticket in ServiceNow. Observed and agreed to the system record.

Step 3 — SAP Security locks the account. Observed and agreed to the system record.

Step 4 — A weekly report matches leavers to locked accounts. Observed and agreed to the system record.

3. Precision

Tolerance: 24 hours from the HR termination date; anything later is a breach.

4. Segregation confirmed

Accounts are locked by SAP Security, independent of the leaver's line manager. Confirmed by inspecting the role assignment in SAP S/4HANA.

5. Exceptions

Any exception — a late lock — is investigated and escalated to the IT Compliance Lead. No exception arose on the transaction traced.

6. Conclusion

The control is implemented as described. Screenshots and the SAP audit trail for the traced transaction are retained with this record.
