

Evidence for the sampled items — T-03

New payee setup independently verified · Treasury · owner A. Verma · period 1 Jan – 30 Jun 2026 (interim)

Purpose — these records show the control operating over the sampled new payee set-ups, and so addressing the risk that payments released without dual authorisation or to unverified payees.

Precision — tolerance: nil. No payee is activated without a completed call-back, whatever the first payment value.

Who signed — The call-back is made by the Master Data team, independent of the requester and of anyone who can release payments.

Source — extracted from the SAP S/4HANA (FI-BL) audit trail on 8 Jul 2026 by A. Verma; the signed originals are retained in the Altura evidence store.
