

Process flowchart — Fixed Assets

FX-01 · Capex additions are approved per the delegation of authority

Fixed Assets — Project Accounting — Fixed Assets · Control owner S. Iyer · Companies: Altura Solar Pvt Ltd, Altura Wind Pvt Ltd

Notes. Control points

This control addresses the risk that Fixed Assets misstated — additions, movements or reconciliations not controlled (ASO/FIX/R001), supporting the accuracy and existence / occurrence assertions over capital expenditure additions.

The control is performed by S. Iyer (Project Accounting — Fixed Assets) each month, before the ledger closes: the team approves each capex addition in SAP against the capital budget and the delegation of authority before the order is placed.

Tolerance: nil. Every addition is approved; Board approval above Rs 50 crore, CFO above Rs 5 crore.

The approver is independent of the project team that raised the request.

Any exception — spend without approval or over budget — is held and escalated to the Financial Controller.
