

Walkthrough record — Fixed Assets

FX-01 · Capex additions are approved per the delegation of authority

Fixed Assets — Project Accounting — Fixed Assets · Control owner S. Iyer · Companies: Altura Solar Pvt Ltd, Altura Wind Pvt Ltd

1. Scope of the walkthrough

This control addresses the risk that Fixed Assets misstated — additions, movements or reconciliations not controlled (ASO/FIX/R001), supporting the accuracy and existence / occurrence assertions over capital expenditure additions.

Transaction traced end to end: capex request CAP-26-101 (Bhadla solar inverters), at Altura Solar Pvt Ltd. Walkthrough held on 18 Mar 2026; attendees S. Iyer, T. Das (Asset Accounting Lead), A. Mehta (auditor).

2. What we saw

The control is performed by S. Iyer (Project Accounting — Fixed Assets) each month, before the ledger closes: the team approves each capex addition in SAP against the capital budget and the delegation of authority before the order is placed.

Step 1 — The project team raises a capex request with the budget line and business case. Observed and agreed to the system record.

Step 2 — Project Accounting checks it against the approved capital budget. Observed and agreed to the system record.

Step 3 — Approval is routed by value under the delegation of authority. Observed and agreed to the system record.

Step 4 — The asset under construction is created only after approval. Observed and agreed to the system record.

3. Precision

Tolerance: nil. Every addition is approved; Board approval above Rs 50 crore, CFO above Rs 5 crore.

4. Segregation confirmed

The approver is independent of the project team that raised the request. Confirmed by inspecting the role assignment in SAP S/4HANA (FI-AA).

5. Exceptions

Any exception — spend without approval or over budget — is held and escalated to the Financial Controller. No exception arose on the transaction traced.

6. Conclusion

The control is implemented as described. Screenshots and the SAP audit trail for the traced transaction are retained with this record.
