

Process flowchart — Procure to Pay

PX-05 · Procure to Pay exceptions are escalated and resolved per policy

Procure to Pay — Shared Services — Procurement & AP · Control owner S. Iyer · Companies: Altura Infra Holdings Ltd, Altura Solar Pvt Ltd

Notes. Control points

This control addresses the risk that Procure to Pay misstated — additions, movements or reconciliations not controlled (AIH/ P2P/R001), supporting the accuracy and existence / occurrence assertions over invoice and payment exceptions.

The control is performed by S. Iyer (Shared Services — Procurement & AP) each month, before the ledger closes: the team works the blocked-invoice list daily and resolves each item under the AP exceptions policy.

Tolerance: price variance up to 2% or Rs 10,000 per line is allowed; anything above the tolerance blocks the invoice.

Blocks are released by the AP Controller, independent of the AP processor who keyed the invoice.

Any exception open more than 15 days is escalated to the Head of Procurement and reported monthly.
