

Walkthrough record — Treasury

T-02 · Bank reconciliations reviewed monthly

Treasury — Group Treasury · Control owner A. Verma · Companies: Altura Infra Holdings Ltd, Altura Solar Pvt Ltd, Altura Wind Pvt Ltd, Altura Smart Metering Pvt Ltd

1. Scope of the walkthrough

This control addresses the risk that bank balances misstated through unreconciled differences (AIH/TRY/R002), supporting the accuracy and existence / occurrence assertions over bank reconciliations.

Transaction traced end to end: the HDFC current account reconciliation for March 2026, at Altura Infra Holdings Ltd. Walkthrough held on 18 Mar 2026; attendees A. Verma, N. Bhatt (Treasury Controller), A. Mehta (auditor).

2. What we saw

The control is performed by A. Verma (Group Treasury) on every transaction, as it is processed: the team matches bank statement lines to the ledger automatically in SAP (FEBAN) and lists every unmatched line for review.

Step 1 — MT940 statements are imported to SAP each morning. Observed and agreed to the system record.

Step 2 — The matching rule set clears lines that agree on amount, value date and reference. Observed and agreed to the system record.

Step 3 — Unmatched lines are listed on the open-items report by account. Observed and agreed to the system record.

Step 4 — The Treasury Controller reviews the open items at month-end. Observed and agreed to the system record.

3. Precision

Matching tolerance: zero on amount and two days on value date; anything outside the tolerance stays open for review.

4. Segregation confirmed

The matching rules are maintained by IT under change control, independent of the Treasury team that reviews the open items. Confirmed by inspecting the role assignment in SAP S/4HANA (FI-BL).

5. Exceptions

Any exception older than 30 days is escalated to the Group CFO with an explanation and an owner. No exception arose on the transaction traced.

6. Conclusion

The control is implemented as described. Screenshots and the SAP audit trail for the traced transaction are retained with this record.
