

Process flowchart — Treasury

T-05 · FX deals confirmed independently of dealing

Treasury — Group Treasury · Control owner A. Verma · Companies: Altura Infra Holdings Ltd, Altura Solar Pvt Ltd, Altura Wind Pvt Ltd, Altura Smart Metering Pvt Ltd

Notes. Control points

This control addresses the risk that treasury exposures taken outside board-approved limits (AIH/TRY/R003), supporting the accuracy and existence / occurrence assertions over FX deals.

The control is performed by A. Verma (Group Treasury) each month, before the ledger closes: the team confirms every FX deal with the counterparty through the back office before it is settled.

Tolerance: zero on rate, amount and value date; any difference stops settlement.

Confirmations are received and matched by the back office, independent of the dealing desk.

Any exception — an unconfirmed or mismatched deal — is held and escalated to the Treasury Controller the same day.
