

Process narrative — Fixed Assets

FX-04 · Disposals are approved and derecognised in the period of sale

Fixed Assets — Project Accounting — Fixed Assets · Control owner S. Iyer · Companies: Altura Solar Pvt Ltd, Altura Wind Pvt Ltd

1. Purpose and scope

This control addresses the risk that Fixed Assets misstated — additions, movements or reconciliations not controlled (ASO/FIX/R001), supporting the accuracy and existence / occurrence assertions over asset disposals.

It applies to Altura Solar Pvt Ltd, Altura Wind Pvt Ltd and is run in SAP S/4HANA (FI-AA).

2. How the control works

The control is performed by S. Iyer (Project Accounting — Fixed Assets) each month, before the ledger closes: the team approves each disposal and checks that the asset is derecognised in the period of sale.

- a) The site raises a disposal request with the sale or scrap note.
- b) The request is approved under the delegation of authority.
- c) The retirement (ABAVN) is posted in the month of sale.
- d) Gain or loss is reviewed against the sale proceeds.

3. Precision

Tolerance: nil — every disposal is approved and posted in the month of sale.

4. Who does what

The approver is independent of the site team that raised the disposal. Approvals are given under the Altura delegation of authority (DoA v7, effective 1 Apr 2025).

5. Exceptions

Any exception — a disposal posted late or without approval — is held and escalated to the Financial Controller.

6. Evidence

Each occurrence is evidenced by dated sign-off; the SAP audit trail and the signed documents are retained for eight years in the Altura evidence store.

Process owner: G. Pillai (Financial Controller) · Version 3.2 · Approved 12 Apr 2026
