

Evidence for the sampled items — T-02

Bank reconciliations reviewed monthly · Treasury · owner A. Verma · period 1 Jan – 30 Jun 2026 (interim)

Purpose — these records show the control operating over the sampled bank reconciliations, and so addressing the risk that bank balances misstated through unreconciled differences.

Precision — Matching tolerance: zero on amount and two days on value date; anything outside the tolerance stays open for review.

Who signed — The matching rules are maintained by IT under change control, independent of the Treasury team that reviews the open items.

Source — extracted from the SAP S/4HANA (FI-BL) audit trail on 8 Jul 2026 by A. Verma; the signed originals are retained in the Altura evidence store.
