

Process flowchart — Treasury

T-04 · Borrowing within board-approved limits

Treasury — Group Treasury · Control owner A. Verma · Companies: Altura Infra Holdings Ltd, Altura Solar Pvt Ltd, Altura Wind Pvt Ltd, Altura Smart Metering Pvt Ltd

Notes. Control points

This control addresses the risk that treasury exposures taken outside board-approved limits (AIH/TRY/R003), supporting the accuracy and existence / occurrence assertions over drawdowns and new borrowings.

The control is performed by A. Verma (Group Treasury) each month, before the ledger closes: the team checks every drawdown against the board-approved borrowing limits before the facility agreement is signed.

Tolerance: nil above the board-approved limit — no drawdown may take total borrowings over it, and covenant headroom must stay above 10%.

The drawdown note is approved by the Group CFO, independent of the dealer who negotiated the facility.

Any exception — a drawdown that would breach a limit — is held and escalated to the Board before signature.
